## arXiv Business Planning Update

October 2011

### Governance Planning Grant from Simons Foundation

The Simons Foundation has provided a \$60,000 planning grant to support the development of a governance model that will guide arXiv's transition from an exclusive initiative of Cornell University Library (CUL) to a collaboratively governed, community supported resources. Please see the [press release](#) for more information.

### arXiv's 20th Anniversary Celebration at Cornell

On September 23, 2011, we commemorated the 20th anniversary of arXiv with a local celebration that included two meetings and a public talk by Paul Ginsparg. [arXiv Scientific Advisory Board](#) members met to discuss the role, structure, and composition of the Board; moderation issues such as new moderator recruitment and submission quality criteria; and the ongoing business modeling and organizational streamlining efforts. We also hosted a meeting with the representatives from several publishers and societies that are interested in Cornell's sustainability planning efforts. The goal of the forum was to discuss the feasibility and desirability of establishing a research and innovation collaboration in support of arXiv. Potential collaboration areas discussed included strategies to improve crosslinking, supporting lifecycle of research materials and version control, supplementary material support, author authentication and verification, and automated metadata exchange. Included in the meeting were representatives from American Mathematical Association, American Physical Society, American Institute of Physics, Institute of Physics, Institute of Mathematical Statistics, Springer, Elsevier, and Wiley. As we move forward with our discussions, we will make an effort to bring in other significant international publisher/society partners to this discussion.

### News from the Operations Front

We continue working with the CERN team to migrate arXiv to use the Invenio platform for our access interface. Developers working with the ADS, INSPIRE and arXiv projects met face-to-face in September at the 5th Summit of Information Providers in Astronomy, Astrophysics and High Energy Physics ([AAHEP5](#)). They have together decided on changes to the web framework that Invenio uses that will better support functionality that ADS and arXiv require while also providing a good development path for INSPIRE and other projects using Invenio.

arXiv now provides a login service for INSPIRE that facilitates sharing of author identity information between the two systems. When arXiv users login via this mechanism the list of articles on arXiv they have authored is automatically transferred to INSPIRE and used to seed the INSPIRE article claiming service.

The arXiv team has completed a preliminary user study to inform Invenio-related web interface changes. We have also initiated a review of arXiv user guides and help pages.

We continue to work closely with Paul Ginsparg to transition his moderation oversight role into regular arXiv administration processes managed by the Library. Thorsten Schwander, who has worked with arXiv for over fifteen years in various capacities, has assumed additional responsibilities in this regard.

## **Institutional Contributions Update**

Through October 15, 2011, 129 institutions in 16 countries have pledged their support, totaling \$382,000 of contributions for 2011. We gratefully acknowledge the contributions of supporting institutions: [arXiv 2010 Supporters](#) and [arXiv 2011 Supporters](#). The budget information for arXiv is available here: [CY2010 expenses and revenues](#) and [CY2011 budget projection](#).

In January, we will perform an analysis of the 2011 download activity in order to determine the top 200 constituents. Based on our sampling thus far, we do not expect any significant variations from the 2010 list. By February 2012, we will contact each institution (or their representative) in the list in regard 2012 support. As a new feature, we will provide a breakdown of institutional downloads by subject area (Astrophysics, HEP, Mathematics, etc.). Multiple institutions have requested this level of information and we have updated our analytics to provide. We welcome your suggestions for additional metrics.

## **Communication**

The arXiv sustainability initiative's website is <http://arxiv.org/help/support>, including the quarterly updates. You are also welcome to send your questions and input to [support@arxiv.org](mailto:support@arxiv.org). We have recently created an announcement email list for updates about arXiv support efforts, and we have transferred all of our current contacts to that list. If you received this update directly, you are already subscribed. Others wishing to receive quarterly updates via email are encouraged to join the list. Instructions are included below this update.

In August 2011, we held three conference calls and had an opportunity to talk with 33 colleagues on various issues related to arXiv. We will hold three open conference calls in November (to accommodate different time zones) and invite you to join one:

- November 15, Tuesday, 6am EST
- November 21, Monday, noon, EST
- November 29, Tuesday, 4pm EST

We are very interested in understanding different perspectives on our business modeling efforts and welcome suggestions, criticisms, and encouragement! Please register for these conference calls at: [https://cornell.qualtrics.com/SE/?SID=SV\\_09xOd4Uoqc1di84](https://cornell.qualtrics.com/SE/?SID=SV_09xOd4Uoqc1di84)

We thank all our supporters and welcome questions and suggestions.

arXiv Business Planning Team  
Fiona Patrick, Oya Y. Rieger, David Ruddy, Simeon Warner  
Cornell University Library

## **arXiv support announcement email list**

This is an announcement-only list. We anticipate 4-6 posting per year. To join:

Send an email message to: [arxiv-support-updates-L-request@cornell.edu](mailto:arxiv-support-updates-L-request@cornell.edu)

Leave the subject line blank. The body of the message should be a single word: **join**

To ask questions about arXiv support issues or to send comments, please address email to [support@arxiv.org](mailto:support@arxiv.org)
